

Kayalon Microester Red AQ-LE

NIPPON KAYAKU

«Characteristics»

- Kayalon Microester Red AQ-LE is a red dye with good light fastness used for light-to-medium color.
- It exhibits excellent color value and build-up properties in both high-temperature dyeing and carrier dyeing.
- It is an easy-to-use dye with excellent dye migration and covering properties, with low dependence on dyeing temperature and pH.
- Since dyeing is possible even at neutral pH, one-bath dyeing with neutral pH-fixing reactive dyes is possible.
